Who has not seen the WONDERFUL GRANULES,

MEDICAL. DR. JOHN BULL'.

COMPOUND CEDRON BITTERS Attorney at Law

The Latest and Most Important Discovery of the Nineteenth Century.

TO MAN'S NAME IS MORE INTIMATELY CONnected with the history of the Materia Medica of the United States, o' more favorably known as a pioneer in medical discovery, than that of JOHN BULL, of Louis-ville Ky. His inimitable preparation of Sarsaparilla has long stood at the head of the various compounds of that valuable drug. His compound Pectoral of Wild Cherry has become a household word throughout the West and South; and his Worm Lozenges, in less than a year after their introduction, attained a reputation as widespread a the continent of North America. But the crowning glory of his life remains to be attained in his latest discovery, or rather combination, for he does not cla m to have been the discoverer of CEDRON, which is the basis of the hitters now offered to the public. That honor belongs to the native inhabitants of Central America, to whom i's virtues have been known for more than two hundred years. Armed with it, the Indian bids defiance to the most deadly malaria, and handles without fear the most venomous serpents. It is a belief with them that while there is breath left in the body the Cedron is potent to cure, no matter what the disease may be. While Dr. Bull is not prepared to indorse this extravagant prefension, he is nevertheless satisfied from a thorough examination of the evidence relating to its virtues, that, as a remedy and preventive for all diseases arising from exposure either to changes of weather and climate or to the miasmatic influences, it stands without a rival, and justly deserves the reputation it has so long enjoyed n Central America and the West Indies. In

DYSPERSIA

and its attendant train of symptoms, it acts more like a charm than a medicine. There is nothing in the whole range of the Materia Medica that can for a moment bear a comparison with it in this disease. A full account of this wonderful plant may be found in the eleventh edition of the U. S. Dispensatory, pages 1387 A series of experiments, in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combinatian of Cedron with other improved tonics, the whole preserved in the best quality of copper-distilled Bourbon whisky, which he is confident has no equal in

one trial, and you will never use any others. It is not necessary to publish a long list of diseases for Fir, Insurance Corporation in the United States which the Cedron Bitters are a specific. In all diseases of the STOMACH, BOWELS, KIDNEYS. In all affections of the BRAIN depending upon derange

ment of the Stomach or Bowels In GOUT, RHEUMATISM and NEURALGIA; And in FEVER AND AGUE; It is destined to supersede all other remedies. It not nly cures all these diseases but it prevents them. A wine glass full of the Bitters taken an hour before each meal will obviate the ill effects of the most unhealthy climate and screen the person taking it agains disease under the most trying exposure Sold by Druggists and Gr. c rs generally.

captured by a di zen guerrillas near Greencastle on Saturday. A Morris Island letter to the Herald reports the appearance of the gorge face of Sumter last night, and its purspet was not unlike that presented by Fort Pulaski on the evening of the first days' fire. Thirty or forty large holes could be counted in the face of the work. The parapet | boarded by the week, day or meal. was knocked off in places, and the barricade of bricks covering the magazine and sand traverses m5-d6m were seriously damaged and the grim old fort looked as though she had received very severe treatment at our hands. Three days of such work will bring Sumter down upon the heads of its defenders if they wait so long. It certainly can not hold out much longer than that time. Six days were given it to hold out by those who
